# Report of The Minister of Education

To The Honourable Louis O. Breithaupt, LL.D.,
Lieutenant-Governor of the Province of Ontario.

#### Your Honour:

With all respect I submit to Your Honour my Report, as Minister of Education, for the year, 1954. The diversified services which the Department renders to the citizens of this Province are therein described in detail, showing, it will be generally agreed, a more than satisfactory development of our educational system. Nowadays almost all citizens are interested in Education, not only because the population of the Province is rapidly increasing but also because nearly everyone realizes how important it is that the young people of our day should be well prepared and well equipped to assume the duties and responsibilities of citizenship a few years hence.

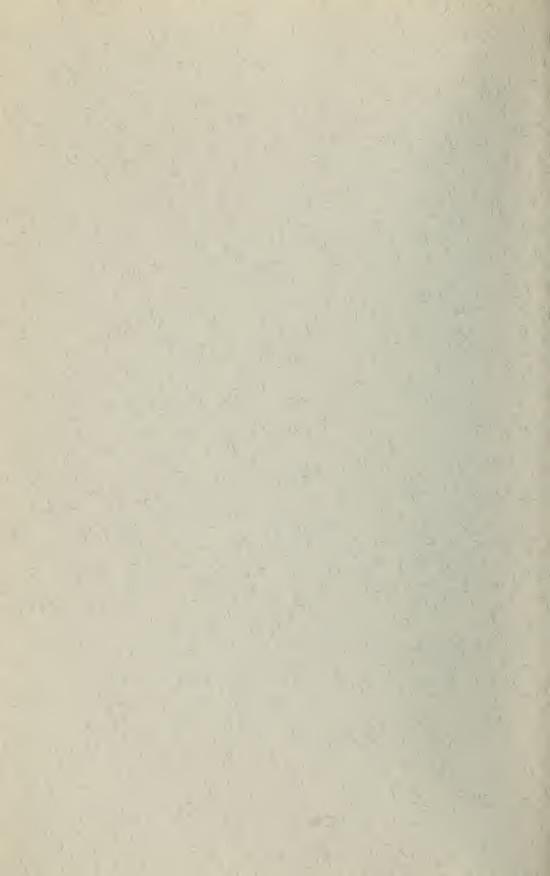

Respectfully submitted,

Minister of Education.

October 6th, 1955.

# PART I GENERAL

# **Elementary Education**

#### LEGISLATIVE GRANTS

The plan for distribution of the general legislative grants in 1954 was similar to that of the previous year, with the following minor differences.

- (1) Where a Board operated certain types of auxiliary class units, the maximum for determining the increased average daily attendance for grant purposes was increased from 10 to 30.
- (2) In order to qualify for the grant of \$300.00 for each former school section or former separate school area, a larger unit of administration had to consist of at least two former school sections or former separate school areas.
- (3) Where any part of the assessment of an urban municipality having a population of 2500 or more supported a school section, a larger unit of administration or a separate school area, the grant on approved cost for the Board concerned was determined on the basis of population.

#### LARGER UNITS OF ADMINISTRATION

During 1954, six new township school areas were formed and six former school sections were added to existing areas. Five established township school areas were dissolved. There are now 3527 former school sections in township school areas.

Six new union separate School Boards were formed in 1954. There are now 58 Boards for union separate schools in operation, replacing 166 Boards formerly administering schools.

As a result of an Act passed in 1953 to provide for the federation of the municipalities in the Toronto Metropolitan Area for certain financial and other purposes, Boards of Education were established in the Townships of North York and Scarborough. These Boards appointed their own supervisory officers, as did the Stamford District Board of Education. There are now 21 cities and larger units of administration in which the Boards, subject to the approval of the Minister, appoint their own supervisory officials. At the end of 1954, 58 officials were so employed.

#### TRANSPORTATION OF PUPILS

School Boards transported more pupils in the school year 1954-55 than in the previous year. Actually, Elementary School Boards operated 20 fewer routes with fewer vehicles but they carried more children. There were 40,644 pupils transported by Elementary School Boards to elementary schools, and 6,596 to secondary schools. The increase in the number of pupils who were transported to secondary school by Elementary School Boards was 148, a smaller increase than in the previous year. The increase in the number of elementary school pupils who were transported was 6,719. Both increases follow the pattern of the previous year.(1)

#### **CONSOLIDATION OF SCHOOLS ACTS IN 1954**

Section 93 of The British North America Act assigns to each Province the right to make laws relating to education. By 1954, Ontario had in force twelve Acts dealing specifically with the educational programme for which the Province and local Boards were responsible. These Acts were The Adolescent School Attendance Act, The Auxiliary Classes Act, The Boards of Education Act, The Continuation

<sup>(1)</sup> For tables see p. 64. See also p. 10.

Schools Act, The Department of Education Act, The High Schools Act, The Public Schools Act, The School Attendance Act, The School Sites Act, The Separate Schools Act, The Teachers' Boards of Reference Act, and The Vocational Education Act. In addition, the Department of Education administers The Public Libraries Act, The Teachers' Superannuation Act, The Teaching Profession Act, The Trade Schools Regulations Act, and, more recently, The Ontario School Trustees' Council Act. In 1954 the provisions of the first twelve Acts named were consolidated into five Acts.

The Department of Education Act, 1954, sets forth the duties which the Legislature has placed on the Minister. His major responsibilities are

- the training and certification of teachers for elementary and secondary schools;
- (2) the certification and appointment of school inspectors;
- (3) the definition of the course of study for Grade 13 and the defining, recommending, or permitting of courses of study from kindergarten to Grade 12;
- (4) the apportionment and distribution of legislative grants;
- (5) the operation of the Ontario Teachers' Colleges, the School for the Blind, the School for the Deaf, Ryerson Institute of Technology, the Provincial Institute of Trades and other Provincial Technical Institutes;
- (6) the making of necessary regulations;
- (7) the approval of text-books.

The Schools Administration Act, 1954, contains eight parts. The provisions of this Act apply generally to elementary and secondary schools. Part I deals with school terms and compulsory attendance. Part II concerns teachers. Part III provides for the School Trustees' and Teachers' Boards of Reference. Part IV outlines the duties and powers of Boards of Trustees. Part V provides for auxiliary classes. Part VI deals with school sites. Part VII provides for penalties for certain offences. Part VIII is a miscellaneous section.

The Secondary Schools and Boards of Education Act, 1954, is a consolidation of the former Continuation Schools Act, The High Schools Act, The Vocational Schools Act, and The Boards of Education Act. There is one part for each of the four former Acts. Part V contains those provisions that apply to secondary schools generally. The Public Schools Act and The Separate Schools Act were reduced by repealing those sections common to both which were included in The Schools Administration Act.

#### TEXT-BOOKS

In any educational programme the text-book is second in importance only to the teacher. The list of approved text-books issued each year (Circular 14) contains what are considered to be the best text-books available. As text-books are no longer authorized, and as the approval is not given for a definite period, a book can be dropped from the list at any time should it prove to be unsatisfactory or should a better book in the subject become available.

In approving books it is the policy of the Department to give preference to books written by Canadian authors and produced in Canada. This policy, after being in operation for only a few years, has had the effect of encouraging a number of talented teachers to prepare text-books that are admirably suited to the needs of Ontario schools. More than 25% of the books listed in the 1954 issue of Circular 14 were prepared by Canadian authors.

Specially noteworthy are four text-books for the Social Studies course in Grade 5, which were presented to the Department for consideration during the year. No text-books had previously been available for this course. These books were all written by Ontario educators, one of whom is a Grade 5 teacher in a Public School.

A concern of all teachers has been the improvement in the course in English. A survey of the teaching of English in secondary schools was carried out during 1954 by the Secondary School Inspectors, and to assist in this survey, Dr. Percival Gurrey, formerly Professor of English at the Institute of Education, University of London, was added to the inspection staff for the Fall term. Dr. Gurrey also had an opportunity to observe the English courses in a number of elementary schools. During the survey the text-books in English composition were given close scrutiny, and it is felt that improvement in text-books dealing with this subject is required. Conversations have been held with the publishers of some of these books with a view to having revised editions prepared.

It was expected that a new Geography dealing with the continents of Europe and Asia would be available in 1954. The delay in the publication of this book is attributed by the publishers, in part, to the difficulty they have experienced in securing authentic information from countries behind the Iron Curtain. It is anticipated, however, that this book will be available in 1955.

#### RAILWAY CAR SCHOOLS

In Northern Ontario there are children of railway section workers, of trappers, of lumbermen, and of others who are located in communities where there are not enough children for the organization of a regular school. The Department of Education provides for the education of many of these children at no cost in fees or school taxes to the parents, by arranging with the railway companies serving these areas for the operation of six railway car schools.

Each car has a classroom and an apartment for the teacher. The teacher is regularly qualified and is paid by the Department of Education, which also furnishes the teacher's apartment and provides all supplies needed in the classroom. The car schools have from two to five stops each, stay for a week at one stop, and then are moved to the next stop by the railway company.

The number of children at each stop varies from 3 to 17. These pupils attend school for the week during regular hours and then are given assignments for home study during the period when the car will be away.

During 1954, the railway car schools brought educational facilities to 145 children at 24 stops of the six schools, one on the Ontario Northland Railway, two on the Canadian Pacific Railway, and three on the Canadian National Railways.

#### **NEW CONSTRUCTION**

In 1954, new accommodation was provided for 55,965 pupils at an estimated cost of \$32,100,000. The volume of elementary school construction which these figures represent is the greatest which has ever been provided in any single year in this Province. During the period 1944 to 1954 inclusive, new accommodation has been provided at a cost of \$170,090,000.00 for 263,680 pupils, while the increase in enrolment has been 292,894 pupils.(2)

#### **NEW SCHOOLS IN NEW COMMUNITIES**

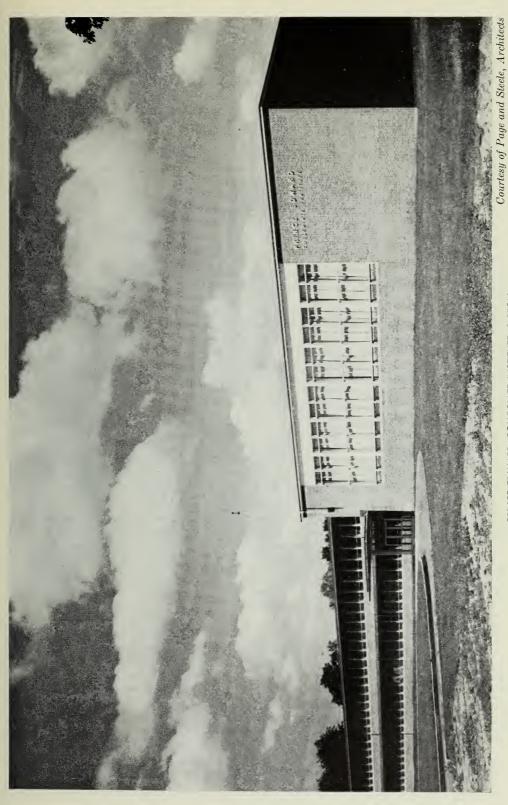

A considerable number of the new schools which have been constructed in the Province since 1945 have been erected in suburban areas adjacent to our large cities and towns. In many cases, complete new communities have sprung up on land which one or two years before had been farming or fruit-growing land, and have become residential areas for the larger urban municipalities.

This growth has been rapid rather than gradual. The new school accommodation required has not been additions to existing buildings, but new schools where

<sup>(2)</sup> See also p. 10.

6

7

no schools existed before. Boards which had jurisdiction for school purposes over these areas have been plunged overnight into the construction of new schools for newcomers to the vicinity.

The school population has come to these schools from many parts of our Province and from many educational systems across Canada, from the United States, and from other countries. The task of the teacher has been to integrate these pupils into an educational community which works harmoniously, while still giving assistance to individual pupils in particular problems in the method the pupils learned elsewhere.

Home and School Associations have been formed quickly, and have given the lead in building a community spirit in many new areas. School Boards have been eager to assist their new groups of taxpayers in organizing community activities. Their new schools have become the centres for religion as the use of the buildings has been made available to various denominations for Sunday meetings preliminary to the development of new churches in the community. The schools have also become cultural centres as worthy adult organizations have had their initial meetings for a variety of purposes in the new buildings.

#### SCHOOLS ESTABLISHED UNDER SECTION 66 OF THE PUBLIC SCHOOLS ACT

Shortly after the close of the war in 1945 a problem arose regarding the education of children whose families came to live in military camps and other establishments set up on Crown properties by the Government of Canada. This problem was met by the addition to The Public Schools Act of a section which became section 66 of the Act in its present form. This amendment gave the Minister authority to designate as a rural school section the whole or any portion of lands held by the Crown in right of Canada or Ontario, or any lands which are exempt from taxation for school purposes.

Fifty schools are now in operation under this section of the Act. Of these, 17 are in establishments of the Department of National Defence, 5 on establishments of the Hydro-Electric Power Commission of Ontario, one at the Atomic Energy townsite at Deep River. Sixty-five hundred children attended these schools during the year. In addition, 27 schools have been set up in sanatoria, cerebral palsy centres, and similar institutions, and in them approximately 1500 children are being educated.

Where a school is maintained in a Crown establishment, the Department of Education pays a grant of 50% of the approved cost, exclusive of capital expenditures. Where the Board operates a school in a sanatorium, a hospital, or a centre for the treatment of cerebral palsy the grant paid by the Department is 80% of instructional salaries. In addition, these schools receive the reimbursement grant for text-books and books of reference.

#### TRUSTEE ASSOCIATIONS

The interest that Boards of Trustees have in promoting and advancing the course of education in Ontario is strengthened and given positive direction when Boards are members of a trustee association. The following trustee associations were represented in the Ontario School Trustees' Council created by an Act of the Legislature in 1953, and were individually active in the promotion of the interests of their widely scattered members. 1. The Associated High School Boards of the Province of Ontario. 2. L'Association des Commissaires des Ecoles Bilingues d'Ontario. 3. The Ontario School Trustees' and Ratepayers' Association. 4. The Ontario Separate School Trustees' Association. 5. The Public School Trustees' Association of Ontario. 6. The Ontario Urban and Rural School Trustees' Association. 7. The Northern Ontario Public and Secondary School Trustees' Association.

#### THE EXHIBIT AT THE CANADIAN NATIONAL EXHIBITION

Four display machines, each equipped with thirty coloured slides depicting various aspects of the elementary and secondary schools and the other services of the Department, were kept in constant operation during the day and evening through the Exhibition. Historical collections of documents and materials from the Archives were viewed by many. Three films were shown in a theatre adjoining the main exhibit—"Royal Scotland", "Skippy and the Three R's", and "Life Along the Waterways". Many visitors to the Exhibition expressed their interest in the exhibit.

#### **CEA-KELLOGG PROJECT**

The 1954 short course sponsored by the CEA-Kellogg Project in Educational Leadership was held for three weeks in May, 1954, at the University of Alberta in Edmonton. With minor changes, the organization followed the pattern established for the pilot short course in May, 1953. While working toward better education for children in the schools, the 1954 short course was intended to serve four purposes:

- (1) To stimulate the intercommunication of educational ideas and practices between widely-separated areas in Canada, and to identify tentatively emerging principles of supervision and administration in a Canadian setting.
- (2) To provide an opportunity for further exploration of problems in educational administration and supervision which are of concern to members.
- (3) To provide an opportunity for individual members to form definite plans for later local action.
- (4) To provide members with an opportunity for gaining further understanding of the responsibilities and techniques of educational leadership.

Seventy delegates attended the course, including 62 inspectors and local superintendents from across Canada, 4 teachers, 2 trustees, and 2 city superintendents. Fourteen inspectors were from Ontario.

During the week of October 24, 1954, a second workshop was held at Laval University, in Quebec City. Thirty-five delegates attended this work conference, of whom eleven were from Ontario.

A detailed evaluation of the Project at the end of its third budget year has revealed a number of interesting features in Canadian education. These include:

- (1) increasingly widespread realization of the significance of the position of the superintendent in modern Canadian Education, necessitating both well-founded preparation and continuous in-service training for that position;
- (2) a trend toward a kind of leadership in which autocratic direction gives way to guidance and a more liberal sharing of responsibility;
- (3) the soundness of a co-operative Canada-wide approach for bringing the wealth of different Canadian experience to bear upon the various problems of superintendency;
- (4) a need for the continuance of interchange and collation of experience and theory in educational leadership in Canada.

# **Secondary Education**

#### 1. SECONDARY SCHOOLS

**ENROLMENT** 

The rapid growth in the elementary school population which has occurred in recent years is now being reflected in a corresponding increase in the Secondary Schools. For the school year 1953-54 there were 115,399 pupils enrolled in the academic secondary schools and 33,275 in the vocational schools. This represents

an increase over the previous year's enrolment for both classes of schools, of 6,753 day-time students. The enrolment in evening vocational classes was 66,282 and for academic evening classes 12,056.

#### BUILDING PROGRAMME

The growth in enrolment entailed a continued expansion of the school building programme. During 1954 there were 57 building projects completed which provided accommodation for 13,800 secondary students at a total cost of nearly \$18,000,000. Of these 57 projects, twenty-seven were completely new schools and thirty were additions to existing buildings.

#### **TRANSPORTATION**

Boards of Secondary Schools provided transportation for more than 35,000 pupils, at a daily cost in 1954 slightly in excess of \$17,000. Approximately 1,300 routes were in operation involving a distance of 60,000 miles daily driving. Transportation for an additional 6,500 Secondary School pupils was provided by Boards of elementary schools.(3)

#### CURRICULUM

In September 1954 new or revised courses of study were introduced for most of the Grade XIII subjects. These revisions were made by curriculum committees composed of representatives of the Universities and the Department of Education. In carrying out their work the committees consulted representatives of various educational organizations as well as individual teachers. Suggestions and evaluations have been requested and in this way it is planned to keep the new courses continually under review.

Similarly vocational courses have been undergoing revision to keep them in line with the needs and practices of business and industry. In 1954 new Commercial courses and courses in Industrial Arts were introduced. Teachers, representatives of industry, and business men acting through local chapters of the National Office Management Association, all assisted in these revisions and will be continually consulted in further revisions. The work of these groups has also made possible a number of co-operative training programmes for senior pupils, combining practical experience and school work.

#### **TEACHERS**

There were 6,495 full-time teachers employed in Secondary Schools during the year 1953-54. Most of the schools were adequately staffed with properly certificated teachers but a number of Boards were obliged to engage teachers not fully qualified.

The emergency training plan for teachers of industrial subjects has been helpful in reducing the shortage in this field. Summer courses have provided training for special qualifications; for example 150 teachers were enrolled in commercial courses qualifying for elementary or intermediate or specialist certificates. But while these measures alleviate the situation in particular departments the fact remains that the number of Secondary School teachers qualifying annually at the Ontario College of Education has not been sufficient in recent years to overcome the losses to the profession and the increased requirements of the school system arising from the expanding school population.

<sup>(3)</sup> See also p. 3 and tables on p. 64.

General legislative grants paid to academic Secondary Schools in the fiscal year 1953-54 amounted to \$15,381,066, an increase of almost one and one-quarter million dollars. Grants to vocational schools in the same period amounted to \$2,936,100. Under the Vocational Schools Assistance Agreement an amount of \$597,500 was received from the Federal Government. This was the fixed maximum payable towards maintenance expenditures, conditional upon the provincial contribution not falling below that figure. An amount of \$269,691 was also received as a final payment terminating the agreement with respect to capital expenditures.

The special grant paid to Boards on expenditures for approved text-books for Grades IX and X has enabled a great many schools to supply their pupils in these grades with most of the books they require.

#### TEACHING OF ENGLISH

Dr. P. Gurrey, the well-known authority on the teaching of English, was given a special appointment as a Secondary School Inspector, to visit schools and to assist teachers of English, during the period of September to December 1954. His conferences with teachers and inspectors and his demonstration lessons given in various parts of the Province proved to be most helpful to all concerned.

#### 2. TECHNICAL INSTITUTES

Five Technical Institutes, strategically located to meet the needs of specialized industries, have been established within the last ten years, and in this time they have filled an urgent need for trained workers in the areas concerned. Close co-operation is maintained with industry with the help of Advisory Councils, and courses are constantly revised to keep pace with technical advances. Evening classes provide opportunities for regularly employed workers to improve their training and skills.

#### LAKEHEAD TECHNICAL INSTITUTE

The Lakehead Technical Institute at Port Arthur operates in three divisions. The Technical division offers two-year terminal courses, with extensive field training, in Forestry and Mining. The University division offers the first year in Arts, Applied Science, Commerce, Forestry, Forest Engineering, and Household Science courses from which students may transfer to universities of their choice. The special division offers academic courses at the post-secondary level in a night-school programme. The Northwestern Ontario Forestry Research Library is housed in the Institute.

#### PROVINCIAL INSTITUTE OF MINING

The Provincial Insitute of Mining at Haileybury has been in operation for nine years, making an important contribution to the mining industry of Canada by providing technical personnel for engineering and survey departments of mines, for geological staffs, and for mine, mill, and smelter laboratories. The enrolment in September 1954 was 98.

#### PROVINCIAL INSTITUTE OF TEXTILES

The Provincial Institute of Textiles, Hamilton, graduated its fifth class in June 1954. The school provides both day and evening classes, its students being drawn from the textile industry in Hamilton and surrounding communities. Generous support is provided by the industry in machinery and raw materials and in encouragement and assistance to students. There is a continuing demand for graduates of the school.

#### PROVINCIAL INSTITUTE OF TRADES

The Provincial Institute of Trades at Toronto provides training for trades designated by the Department of Labour under The Apprenticeship Act, for a few non-designated trades, and for certain special requirements of the Royal Canadian Air Force in telecommunications.

#### RYERSON INSTITUTE OF TECHNOLOGY

The original aim of the Ryerson Institute of Technology at Toronto was to prepare its students to become engineering technicians. Although other courses have been added, the original courses—electrical and electronic technology, mechanical and metallurgical technology, chemical technology and architectural technology—continue to attract more than two-thirds of the enrolment. About 40% of the 1,654 day school students come from the Toronto metropolitan area. There were more than 5,000 students enrolled in extension or evening classes.

#### 3. SPECIAL PROJECTS UNDER FEDERAL-PROVINCIAL AGREEMENTS

#### 1. General

The Department of Education, Ontario and the Department of Labour (Canadian Vocational Training), Ottawa, are co-operating in special training programmes. The extent of Federal reimbursement, varies from 50% to 100% of the cost of these programmes.

#### (a) Rehabilitation of Disabled Persons

Disabled persons over sixteen years of age may be approved for suitable training for a maximum period of twelve months. Tuition, books, and some transportation charges are provided.

#### (b) Royal Canadian Air Force—Project No. 2

Special arrangements have been made for training up to 120 R.C.A.F. personnel in Telecommunications at the Provincial Institute of Trades.

#### 2. The Defence Training Board

This board with representation from the services concerned was set up at the request of the Department of Labour at Ottawa to provide Civilian instructors for the Army and Air Force. Approximately seventy instructors are employed by the Board.

#### 3. Supervisory Training

The Department of Education has instituted a programme of assistance to industry in the form of supervisory training services. These services, which had their genesis in wartime, have been modified to meet the needs of present-day industrial development.

# **Professional Training**

#### TEACHERS' COLLEGE ENROLMENT

Two purposes underlay the reorganization in 1952 of the system of preparing teachers for the elementary schools—first, to improve teacher education, and second, to attract more recruits for the profession. The enrolment figures of the Teachers' Colleges in the school year 1954-55 indicated that progress was being made towards these goals. The eight Colleges had a total of 2,692 students in attendance compared with a total of 1,732 in the previous year. The increase included 362 additional students in the One-year Course in which candidates are required to hold standing in eight Grade XIII papers, including at least one English paper.

The two new courses, which were established in the reorganization with a view to obtaining teachers from Grade XII graduates, also contributed to the higher enrolment. In the First Year of the Two-year Course, numbers increased from 314 to 391; 250 students enrolled in the Second Year which was offered for the first time in 1954-55. A total of 272 teachers who successfully attended the Pre-Teachers'-College Summer Courses in 1952 and 1953, and who taught on Temporary Certificates in the following school years, enrolled in the One-year Completing Course, which was also offered for the first time.(4)

At the Ontario College of Education, 518 students were enrolled in courses leading to the High School Assistant's, Library, Vocational, and Industrial Arts certificates. This figure was 48 above that of the previous year.(5)

#### **COURSES OF STUDY**

Two courses were offered at the Teachers' Colleges for the first time in the year 1954; the Second Year of the Two-year Course, and the Completing Course for teachers who had begun their preparation through summer courses. The professional programme in both of these courses was supplemented at Teachers' College by several units of general education chosen from English, history, geography, and psychology. The Second Year of the Two-year Course also offered the following professional subjects in addition to the usual programme: The School and the Community, History of Education, Children's Literature, and Audio-visual Education.

#### **TEACHER SUPPLY**

In the secondary schools there was a continuing shortage of teachers with special qualifications in commercial subjects, science and agriculture, home economics, and girls' physical education. Some relief in staffing in these fields was obtained by the granting of Letters of Standing to suitably qualified teachers from other Canadian provinces or from countries of the British Commonwealth.

Enrolment in the elementary schools of Ontario continued to increase. In September, 1954, there were 53,339 more pupils in these schools than in September, 1953. The employment of 1,728 additional teachers was necessary to serve the new classes thus created. This number added to normal replacements made the demand for teachers particularly heavy. Students graduating from Teachers' Colleges and the Pre-Teachers'-College Summer Courses met the need in part. Their numbers were supplemented by teachers entering the Province from other educational systems in Canada or the British Isles. In this connection an official of the Department of Education visited Great Britain and Ireland in the spring and assisted more than a hundred teachers to find employment in Ontario.

A total of 623 Letters of Standing valid for teaching for one year in the elementary schools was issued during 1954 to teachers of acceptable training and academic education from school systems outside Ontario. These Letters are exchangeable for Ontario certificates upon evidence that the year of teaching in this Province has been successful. In addition, 676 Letters of Permission were issued by December 1954, for the school year 1954-55, to Boards of Trustees unable to secure the services of certificated teachers. Of the teachers employed under Letters of Permission, 380 had some professional training.

<sup>(4)</sup> For tables see p. 51.

<sup>(5)</sup> For tables see p. 51.

#### TORONTO TEACHERS' COLLEGE

The corner-stone of the new building on Carlaw Avenue for the Toronto Teachers' College was laid on September 2, 1954. The new building came into use in September, 1955 and will be officially opened in January, 1956.

# Schools Attended by Frenchspeaking Pupils

#### TEACHER-SUPPLY

In 1953-54 there were 175 teachers-in-training at the University of Ottawa Normal School, 11 of whom were enrolled in the First Class course and 164 in the Second Class course. As a result of the term and final examinations 9 students were awarded First Class certificates, and 139 obtained Second Class certificates.

There were in this school year 2,033 French-speaking teachers employed in the elementary schools. Of this number 1,732 or 85.2 percent held First or Second Class certificates.

#### SECONDARY SCHOOL CLASSES

The total enrolment of French-speaking students taking advanced French courses in secondary schools was 3,000.(6)

To give a more complete picture of the secondary school enrolment it should be added that besides the 3,000 students reported above there were 2,157 French-speaking pupils enrolled in Grade IX and Grade X classes of elementary schools and 2,340 French-speaking students attending inspected private secondary schools in Ontario. Inspected private schools may, on the recommendation of the Inspector, qualify for certain privileges in reporting the standing of their pupils.

#### **ELEMENTARY SCHOOLS**

There were 63,478 French-speaking pupils enrolled in June, 1954, in separate and public elementary schools, an increase of 3,902 over the preceding year. The total of 63,478 includes 2,157 students in Grade IX and Grade X classes in elementary schools, and 218 pupils in auxiliary classes.(7)

#### CORRESPONDENCE COURSES

June, 1954, completed the twelfth school year in which correspondence courses for French-speaking children of Ontario were given by the Department of Education. All the courses for pupils of Grade I to Grade VIII have been available since September, 1946.

A revision of the courses for the Primary and Junior Division (Grades I to VI) was partly completed during the year. Enrolment figures are shown in Part II of this report.(8)

<sup>(6)</sup> For tables see p. 85.

<sup>(7)</sup> For tables see p. 82.

<sup>(8)</sup> For tables see p. 170.

# **Agriculture**

#### **ELEMENTARY SCHOOLS**

The regulations of the Department of Education provide for instruction in Agriculture as an optional subject, but special grants are no longer paid for Agriculture classes in elementary schools. Where schools have not set up their own Courses of Study they may use the agricultural topics which are included in the Science courses in Circular Curriculum I.1., Outlines of Courses for Experimental Use, Intermediate Division.

#### **SECONDARY SCHOOLS**

Courses in Agricultural Science are optional with General Science and topics in Agriculture may be taken with Science courses in Grades IX to XII. Agriculture in this form is taken in 41 schools in Grades IX and X only and in 132 schools in Grades IX to XII. Agricultural Science only is taught in 68 schools.

There are now 99 schools in which departments of Agriculture have been formed and in which organized programmes in Agriculture have been undertaken. Such programmes provide for instruction in Agriculture in Grades IX and X and related courses in Shop Work for boys and Home Economics for girls. (9)

The number of pupils taking Agricultural Science was 45,367; there were 9,009 taking Agriculture. The number of pupils carrying on home projects in 1954 was 13,252.

#### **TEACHER SUPPLY**

Graduates of the Ontario Agricultural College who have taken teacher training at the Ontario College of Education, and teachers who have attended special summer courses, make up the body of instructors qualified to teach Agriculture. All schools with Departments of Agriculture and many of the smaller schools have teachers with these special qualifications.(10)

#### PRACTICAL WORK

The basic requirements for Agricultural Science include classroom and laboratory instruction, gardening and home projects. In many schools facilities are extended to include poultry houses, green-houses, colonies of bees and a special area for gardening and experimental plots. Pupils are encouraged to participate in related activities outside the school curriculum.

#### Art

#### **RESEARCH AND PUBLICATIONS**

A research project on Art Education during Adolescence was completed and the results were published during the year in a pamphlet with that title. This and other publications, Art and Crafts in the Schools of Ontario, Children and their Pictures, Art Education in the Kindergarten, and Art Education for Slow Learners have made useful contributions to the teaching of Art both within the Province and elsewhere.

Saturday morning classes conducted for the purpose of studying the work of children with outstanding ability in Art were held at the Ryerson Institute of Technology from October to March.

<sup>(9)</sup> For tables see p. 168.

<sup>(10)</sup> For tables see p. 169.

#### SUPERVISION AND TRAINING

The programme of Art in Secondary schools was given special attention. All the schools at which general inspections were held were visited and their programmes in Art evaluated.

Meetings of elementary teachers were held in several inspectorates and workshops conducted in a number of rural areas.

The summer courses in Art were again attended by large numbers of enthusiastic teachers.

# **Audio-visual Education**

#### SCHOOL BROADCASTS

A programme of ninety Ontario school broadcasts covering fourteen different school subjects was prepared for use in the elementary and secondary schools of the province. In addition, twenty-six school broadcasts were made available to Ontario schools through the courtesy of the British School Broadcasting System. All broadcasts were presented in co-operation with the Canadian Broadcasting Corporation over a network of twenty-seven radio stations.

Radio manuals outlining the broadcasts were distributed to all Ontario teachers in September. Evaluation surveys were conducted to test the effectiveness of the broadcasts.

#### FILM SERVICE

Films from the Visual Education library were lent to schools and were shown on 144,208 occasions to a total school audience of 7,790,162 students during the school year. Sixty-seven new film titles were added to the library, and additional prints of films used most frequently were purchased as required. Fifty-one additional schools registered sound projectors with the film library for regular service. The Visual Education Branch now has 8,069 prints of sound films available for use in Ontario schools. A second supplement to the Visual Education Catalogue was prepared during the year, and distributed to all Ontario schools registered with the Visual Education Branch for film service.

A summer course in Audio-Visual Aids was offered to help teachers to improve their classroom practice in the use of Audio-Visual techniques.

# **Auxiliary Education**

Recognition of the school's obligation to provide a programme for those who differ from the normal as well as for the typical pupil has led to the expansion of Auxiliary Education services in this province. The socially or educationally maladjusted, the retarded, or the physically handicapped as well as the gifted pupils are assisted through programmes specially planned to meet their needs. Information, specialized knowledge, and guidance that may be helpful in modifying or supplementing the regular school programme are available to assist local officials in their efforts. Today over 20,000 pupils in this province are helped annually by 650 teachers trained in special education. Tables on page 78 show the extent of this work.

In addition to the auxiliary classes and units established in this province, special attention is given to those persons for whose education no other provision is made. Financial assistance is provided for the education of physically handicapped persons including the deaf-blind, the partially sighted, the cerebral-palsied, the brain injured, the paraplegic, the partially crippled, and certain patients in sanatoria, and in psychiatric and other hospitals. Approved correspondence courses, private tuition, training in special institutions, and necessary transportation are provided for the habilitation and rehabilitation of these persons. A lending library of six thousand sight-saving books is maintained and during the past year approximately two hundred and fifty pupils with limited vision were assisted by the use of these text-books printed in large type.

#### TEACHER SUPPLY

Teachers for special classes are drawn from the regular teaching staff after at least two years of classroom experience. In 1954, two hundred and twenty-two teachers attended the Auxiliary Education summer courses for special training leading to Elementary, Intermediate, Supervisor's and Specialist's Certificates.

#### RETARDED CHILDREN

Under the authority of the Department of Education Act and its regulations, assistance was provided toward the cost of education of children under eighteen years of age, whose mental capacity is incapable of development beyond that of a child of normal mentality at eight years of age. In December 1954 classes were were being held by parents' groups affiliated with the Ontario Association for Retarded Children in the following twenty-four centres; Barrie, Brantford, Fort William, Galt, Hamilton, Kingston, Kirkland Lake, London, Newmarket, Niagara Falls, North Bay, Oakville, Oshawa, Owen Sound, Peterborough, St. Catharines, Sault Ste. Marie, Simcoe, Sudbury, Thornhill, Toronto, Welland, Windsor, York Township.

In the year 1954 the number of parents' groups to which grants were paid increased from eleven to twenty-four. The number of pupils enrolled increased from 260 to 560.

# **Correspondence Courses**

**COURSES** 

At the elementary school level correspondence courses are provided for both English and French-speaking pupils in all the subjects of Grades I-VIII. In addition courses for adults in English and Social Studies are available, covering the work of the senior elementary school grades. At the Secondary School level there are courses available in many of the subjects of Grades IX-XIII.(11)

Changes during the year 1954 included major revisions of courses in Grades VII to X and the introduction of new courses in Chemistry and Latin for Grade XIII.

#### **ENROLMENT**

Five categories of students are now eligible for enrolment in free correspondence courses provided by the Department of Education. 1. Children between the ages of six and sixteen who are unable to attend school. 2. Persons of sixteen years or over who are unable to attend school. 3. Any person normally resident in Ontario

<sup>(11)</sup> For tables see p. 170.

but temporarily living outside Canada. 4. Any member of the Canadian Armed Services and his dependents when on duty outside Canada. 5. Certain students of Secondary Schools who are recommended for enrolment by their Principal and the Secondary School Inspector. This last category was added during the year to permit students to study subjects needed in grades XI, XII or XIII but not available in their schools. In certain circumstances copies of correspondence courses are provided as teaching aids for elementary teachers assisting pupils with more advanced work.

At December 31, 1954 there were 762 students enrolled in elementary school courses, including 73 in bilingual courses, and 130 adults. At the same time there were 1,240 persons enrolled in Secondary courses.(12)

Courses went out to 309 persons from Ontario temporarily residing in other provinces or scattered all over the world, to 152 patients in sanatoria, and to 86 inmates of reform institutions in the province.

New groups added in 1954 included Grade IX and X pupils in three railway school cars, 40 students in Ontario Secondary Schools, and 20 students in schools operated by the Department of National Defence in England, France, Holland and Germany.

# **Examinations and Scholarships**

#### DEPARTMENTAL EXAMINATIONS

Statistics showing the results of the Grade XIII and the Teachers' College examinations, as well as the number of Intermediate Certificates, Secondary School Graduation Diplomas, and Secondary School Honour Graduation Diplomas, will be found in Part II of this Report. (Page 112.)

For the first time in many years the actual marks obtained by candidates were shown on the Grade XIII certificates issued in 1954, in place of Honour and Proficiency standing. This change, which was made at the request of the University Matriculation Board, appears to have met with general approval.

#### STUDENT AID

#### (a) Dominion-Provincial Student-Aid Bursaries

The purpose of these bursaries is to assist students of adequate ability who are financially unable to continue their education. In 1943-44 when the first scholarships were established 192 applicants were awarded a total of \$45,950. In 1953-54 there were 1,536 awards to indivudual students and the total amount distributed was \$300,799. In the school year 1954-55 there were 1,798 awards totalling \$316,711.

#### (b) Transportation Assistance

The transportation subsidies provided by the Department of Education for persons who reside in the territorial districts and are enrolled in an eligible institution of university rank have now been in operation for eight years. In 1954 the sum of \$12,381.75 was paid to 621 students; of these 180 reside west and 441 east of Sault Ste. Marie.

#### (c) Scholarships for Study Outside Ontario

In 1954 the provision for an annual payment of \$6,000 out of the Consolidated Revenue Fund to provide four scholarships to residents of Ontario for the purpose of enabling them to carry on post-graduate study in France was broadened to include study anywhere outside Ontario.

<sup>(12)</sup> For tables see p. 170.

For the school year 1954-55, the two holders of these scholarships were Miss Emma L. McKinnon, Central Collegiate Institute, Oshawa and Miss Kathleen W. Russell, High School, Sudbury.

#### INTERCHANGE OF TEACHERS

Interchange of teachers is encouraged as a means of maintaining Commonwealth unity, of promoting national and international good-will and understanding, and of broadening teachers' interests and their knowledge of educational methods.

For the school year 1954-55 thirty exchanges were arranged, twenty-four with the British Isles, and six with other provinces. During the year considerable public attention was focussed upon the financial difficulties of British teachers who come to Canada on exchange. As a result it appears likely that in future years Ontario teachers who wish to go on exchange to the British Isles may be required to agree to give some financial assistance to their exchanges.

## **Guidance**

#### **GUIDANCE SERVICES**

In the past ten years schools have been encouraged and assisted to provide organized guidance services. The only compulsory feature has been the required provision of two periods per week for group work in Grade IX, and yet Guidance is now quite generally accepted as an essential part of the educational programme. Individual counselling and the development of a system of individual pupil records, the maintenance of adequate files of occupational information, and the development of pupil placement services are guidance activities to be found today in most schools.

#### **TRAINING**

One hundred and twenty-six teachers attended the summer courses in Guidance in 1954. While this represented an increase of 24 over the previous year there was still a shortage of trained counsellors. A number of in-service training courses for guidance workers were provided during the year, in addition to the regular school visits by members of the Guidance branch. An increasing number of these visits are made at the request of the schools concerned and the time may not be too far distant when most of the field activities of the branch will be in response to requests for advice and assistance, rather than for the purpose of official inspections.

#### **RADIO BROADCASTS**

A series of six radio broadcasts entitled "Planning for Tomorrow" was presented during the fall term in co-operation with the Canadian Broadcasting Corporation.

## Music

#### INSTRUCTION

Courses in Music under qualified music teachers were offered in more than 80% of the elementary schools of the Province. (13) Similarly 354 secondary schools provided music courses. There were 277 school choirs, 87 bands and 87 orchestras in these secondary schools and 42 operas were performed during the year. (14)

<sup>(13)</sup> For tables see p. 169.

<sup>(14)</sup> For tables see p. 169.

#### TEACHERS AND TRAINING

There were 836 certificated teachers and supervisors of Music engaged in the elementary schools and 252 in the secondary schools. Music is taught to all the students in the Teachers' Colleges and in addition 476 teachers enrolled for the Summer Courses in Music in 1954. Ten different courses in vocal and instrumental music were offered.

#### MUSIC OPTION

Music is one of the optional subjects in Secondary Schools. Pupils may obtain standing through a school course, if one is offered, or they may obtain equivalent standing by submitting certificates from the Royal Conservatory of Music, Toronto, or other accredited examining body. In 1954 Grade XII standing was achieved by 1,189 pupils. Credit in Music toward a Secondary School Honour Graduation Diploma was obtained by 519 pupils from 167 schools who presented equivalent certificates and by 136 pupils who passed the Departmental Examination in Music of Grade XIII.

#### RADIO

During January, February and March the Department of Education, in cooperation with the Canadian Broadcasting Corporation, presented twenty-five music broadcasts for schools in Four Series,—'Primary School Music', five fifteen-minute programmes for Grades 1-3; 'Junior School Music', five fifteen-minute programmes for Grades 4-6; 'Music for Young Folk', ten thirty-minute programmes for Grades 7 to 10; and 'Ontario Sings', five fifteen-minute broadcasts by school choirs from different parts of the Province. For all these broadcasts the commentary was prepared and given by the provincial Director of Music.

#### CONCERTS

To bring live music of high quality to Secondary School pupils in smaller communities, and to encourage young artists who are for the most part graduates of Ontario Schools, the Department of Education has arranged concert tours through the province. In nine years 946 concerts have been given by 247 artists. In 1953-54 64 artists provided 96 concerts in 40 towns in Ontario.

### School Attendance

#### COMPULSORY ATTENDANCE

Prior to the passing of The Schools Administration Act 1954 attendance at school was compulsory between the ages of eight and sixteen. Under the new act the period of compulsory attendance is more specifically defined as from the first school day in September, on or before which the child attains the age of six years, until the last school day in June in the year in which he attains the age of sixteen years.

#### **ENROLMENT**

The total enrolment of all schools of the provincial system for the school year 1953-54 was 933,104, an increase of 54,901 over the preceding year. The elementary schools showed an increase of 48,172, and the secondary schools 6,729.

The number of public and separate schools in operation was 6,925 with a percentage attendance of 93.6%. There were 369 secondary schools and their average percentage attendance was 95%.(15)

### **EMPLOYMENT**

The number of school children's employment certificates issued during the year 1954 was 530. The issuing of these certificates was discontinued in September. Home permit and employment certificates now serve for all pupils of compulsory school age. These may not be issued for more than six weeks in a term to a child under fourteen years of age.

The number of home permits issued was 1,280 an increase of 143 over 1953 and the number of employment certificates issued was 2,800, a decrease of 1,410. This decrease may be attributed in part to the employment situation and in part to the change in the definition of the compulsory attendance period referred to above.(16)

### **Physical and Health Education**

### SCHOOL PROGRAMME

The demand for improved programmes of Physical and Health Education in the elementary schools has led to an increased attendance at summer school courses. Some urban centres have shown a desire to develop improved courses by conducting their own in-service training programmes. Workshops have been held in a number of centres. New experimental courses have been tried out in the senior grades of secondary schools and have been found generally acceptable.

### CAMP PROGRAMME

### Ontario Athletic Leadership Camp

More than 400 secondary school boys and girls attended this camp, which is intended to train pupils to assist in the work of their own schools. The work of the camp is carefully planned to use athletics and camp activities to develop organizing ability and leadership skills and a sense of responsibility, co-operation and self-confidence.

### Ontario Camp Leadership Centre

This camp is planned to develop counsellors for non-profit camps. Any non-profit camp in the Province may nominate a representative who, after training, is expected to give some service to that camp. There were 240 graduates of the three-weeks course and instruction was given in nature lore, water safety, camp crafts, and other activities. Members of the camp staff by field visits follow up the work of the counsellors and evaluate the effectiveness of the course.

In addition to this service in training counsellors, grants are paid to more than 300 non-profit camps in the Province. The amount so distributed is in excess of \$40,000.

### **Community Programmes**

**SERVICES** 

A special branch of the Department of Education is organized to assist communities in the provision of programmes of recreation and adult education. This branch works in co-operation with municipal recreation committees, School Boards

<sup>(15)</sup> For tables see p. 70.

<sup>(16)</sup> For tables see p. 70.

and other organizations. Field representatives, acting as consultants for their areas, are stationed at Fort William, North Bay, Ottawa, Belleville, Toronto, Oakville, Hamilton, London, and Hanover. Special advisers on the central staff are available to give assistance in Art, Crafts, Puppetry, Recreation Facilities, Social Recreation and Gerontology. Loan services are provided for films, dramatic scripts, musical scores and reference books.

### **ANNUAL GRANTS**

Under the Regulations of the Department of Education grants were paid in 1954 to 170 municipal councils amounting to \$287,300. These grants were based on programme leadership, operation and maintenance costs, and museum operation. In addition a number of special grants were made to organizations carrying on significant province-wide programmes of a recreational or cultural character.

### LEADERSHIP TRAINING

A three-year course of in-service training leads to certification as Municipal Recreation Directors. This training was provided by the Community Programmes branch from 1951 to 1954 and thirteen persons completed the course in that year. The operation of the course was taken over by the University of Western Ontario on January 1, 1955.

Summer courses to train instructors in Art, Crafts and Drama were held at Hamilton and Guelph. Courses for Playground supervisors were given at several centres and also a number of special leadership courses and forums.

### CITIZENSHIP EDUCATION

Work with newcomers to Canada is carried on by the Community Programmes branch in co-operation with School Boards or voluntary groups or directly in classes operated by the branch. Training is given in the use of the English language; classes are held in the history, geography and government of Canada; and assistance is provided for group projects or activities related to the integration of newcomers into Canadian ways.

### **Public Libraries**

### BUILDINGS

A new and completely furnished library building, the gift of Colonel R. S. McLaughlin, was opened in Oshawa on December 1, 1954. It is a creation of outstanding architectural beauty and functional design, marking a high point in Canadian library construction.

Long Branch, with a population of 9,000, opened its first proper library building, erected at a cost of \$40,000. Milverton, with only 1,000 people, spent \$4,500 on the re-designing and renovation of an obsolete Carnegie building. NewToronto has added a new wing to its library at a cost of \$43,000. Trenton has a new building in attractive surroundings, and the Welland County Library Co-operative has completed its new centre near St. Catharines.

It is estimated that since 1946 more than \$3,700,000 has been spent throughout the Province on new buildings, and the improvement of older ones.

Another bookmobile service has been established, to operate in North York in the Toronto Metropolitan area.

Legislative grants paid to public, county, and association libraries in 1954 amounted to \$800,000, an increase of \$65,000 over the preceding year. Better support given to the local library service by the municipalities earned increased grants in many cases.(19)

### **EXPENDITURES**

At the end of 1954, there were 77 public libraries which were receiving between 80 cents and \$1.00 per capita from municipal councils under the Public Library rate; 34 were receiving up to \$1.50 per capita and eight received more than \$1.50. The average Public Library rate was 82 cents per capita. The total expenditure on library service was \$4,318,500, an increase of \$228,000 over 1953. Expenditures on salaries totalled \$2.201,800, and on books \$795,500.

### **SERVICES**

There were, in 1954, 242 public libraries, 239 library associations, 49 branch libraries and 14 county or district library co-operatives in the Province, a total of 544 library service agencies.

One public and three association libraries were established, one public library was revived after years of inactivity, and seven library associations became public libraries. There is significant and steady progress in this latter movement in which library associations are changing their status to public libraries supported by municipal taxation and are thus enabled to give improved service.

The use of books, indicated by library circulation figures, has again shown an increase despite the tremendous and growing impact of television programmes. The increase for the year is 425,000.

### TRAVELLING LIBRARIES

The use of the Travelling Library service continues to increase. In achieving this the interest of the inspectors of rural schools, and the promotional work of the librarian have been most effective. The increase in circulation is the more remarkable in that 12 counties and one district which formerly depended on Travelling Library services are now organized in library co-operatives of their own.

Altogether 1,515 cases of books were distributed in 1954; of these 1,194 went to rural schools whose pupils are not within reach of public or county library service. Only 51 cases went to secondary schools; 149 went to small libraries, 28 to Women's Institutes, 44 to Farm Forum groups, and 44 to other organizations. From these boxes records show that 75,000 books were read by individuals.

### **Public Records and Archives**

### MANUSCRIPT DIVISION

Among the acquisitions during the year there were several series of Ontario Government records. These included:

(1) Prime Minister's Department—General correspondence, minutes, memoranda, &c. of Prime Ministers E. C. Drury, Howard Ferguson and G. S. Henry. These have been acquired by the Archives and have been inventoried, but, because many persons mentioned are still living, they will not be made available to the public for some years.

<sup>(19)</sup> For tables see p. 143.

- (2) Department of Education—(a) Files of incoming correspondence of the Superintendent of Education and the Ministers of Education (1864-1883); (b) Local superintendents and trustees' reports (1855-75); (c) meteorological records (1866-69); (d) school accounts (1860-80).
- (3) Department of Labour—(a) General correspondence files of the Chief Conciliator (1942-48); (b) Miscellaneous records of the Athletic Commissioner (1924-51); (c) Miscellaneous case files of the Industry and Labour Board (1937-47); (d) Miscellaneous case files of the Factory Inspection Branch (1930-46).
- (4) Provincial Secretary's Department—General correspondence files of the Provincial Secretary (Hon. W. J. Hanna) (1906-14).
- (5) Department of the Attorney General—General correspondence files of the Department (1892-96).
- (6) Department of Travel and Publicity—General correspondence files and case files of the Head Office and Toronto Branch of the Ontario Rentals Administration (1951-54). Other manuscripts collections were acquired including:
- (1) The T. L. Church papers (1915-49).
- (2) The diary of Fanny Marion Chadwick, a Toronto resident and amateur playwright (1892-1904).
- (3) The diary of Eli Playter, a pioneer politician, land agent, and militia officer (1801-53)
- (4) The journals of Angus Mackintosh, an early traveller in the Western and Home Districts (1813-14). (Copy)
- (5) The diary of David Nelson, a farmer in Otonabee Township (1864-86). (Typescript copy)
- (6) Diary of Simeon Reesor, Markham Township. (Microfilm)
- (7) Additional manuscripts dealing with T. C. Patteson, editor of the Mail.
- (8) Thirteen Tweedsmuir Histories, compiled by branches of the Women's Institutes. (Microfilm copies)
- (9) A number of single manuscripts dealing with various subjects. Among these are two interesting early letters written by R. B. (later the Hon. R. B. )Sullivan.

One of the most important acquisitions made during the year is a microfilm copy of three series of manuscript records (dealing with this Province) of the Governor-General's Office, the originals of which are in the Public Archives of Canada. Dr. Kaye Lamb, the Dominion Archivist, very kindly gave permission for some of the records dealing with the early history of the Province to be micro-filmed by us, and in September our photographer took our camera to Ottawa and microfilmed:

- (1) Some despatches from the Colonial Office, 1794-1836 (3 vol.).
- (2) Despatches from the Lieutenant-Governors of Upper Canada to the Governors-General, 1821, 1839-41 (4 vol.).
- (3) Letter-books, Upper Canada, 1793-1841
  - (a) Lieutenant-Governor's internal letter-books, 1805-6, 1818-41, (6 vol.).
  - (b) Correspondence with the British Treasury, 1783-1834 (7 vol.).
  - (c) Civil Secretary's letter-books, 1790-1840 (52 vol.). These are the letter-books kept by the secretaries of the Lieutenant-Governors of Upper Canada. The correspondence was principally with the officials and individuals in the Colony.

The following inventories of materials acquired were completed during the year:

- (1) Records of the Prime Minister's Department (in our possession);
- (2) Papers of the Honourable William Dickson, founder of the Dumfries Township settlement;

- (3) The Francis Shanly Collection of railways material;
- (4) Preliminary listing of the Canada Company Papers;
- (5) Preliminary listing of the Percy Robinson Papers;
- (6) Inventory of microfilms from Ottawa mentioned above.

THE LIBRARY

During the year the cataloguing of government documents was completed. Catalogue cards have been made for historical articles in the Canadian Journal, as well as for those in the publications of the Ontario Historical Society. Books, government publications, and pamphlets acquired during the year have been catalogued. A beginning has been made in recataloguing our large pamphlet collection so that the catalogue cards of all our printed material are placed together.

A valuable addition to our collection of Canadian newspapers is the recent gift by Professor F. H. Underhill of *The Weekly and Farmers' Sun* for the period 1892-1921. Being the official organ of the U.F.O., this newspaper affords the reader a good description of the agrarian movement in this province. The W. L. Mackenzie Papers, received in 1953 from Colonel Charles Lindsay, contain a considerable number of rare newspapers. Some of these are early American and should prove interesting and useful to students of United States' history. Other newspapers in the collection help to complete our files of early Ontario newspapers. During the year the Archives commenced work on a card catalogue of its newspapers. The catalogue, when completed, will greatly facilitate the gathering of material by persons interested in the early history of Ontario.

The following maps and pictures were acquired during the year:

- (1) Lambton County Atlas (1880).
- (2) Thirty-five photostats of rare sixteenth, eighteenth and nineteenth century maps in the possession of Dr. A. E. MacDonald.
- (3) Six marine charts of Lake Superior surveyed by Admiral Bayfield; photostats of Bayfield's St. Lawrence charts.
- (4) Thirty-seven photographs, including various members of the Denison family; unusual photographs of Sir John A. Macdonald and Sir Wilfrid Laurier; photographs of the Denison house and grounds were presented by Colonel Denison's daughter, Mrs. J. W. Langmuir; nineteen photographs of the Lake Nipigon area in 1888 were presented by the Library of the University of Western Ontario.

### **Trade Schools**

REGISTRATIONS

Applications for licenses under the Trade Schools Regulation Act were received from 130 schools in 1954. Seven of these were for new schools, offering courses in Commercial Art, Welding, Business, Drafting, and Television Servicing. It is worth noting that two trade schools previously registered added Television Service training to their curriculum to meet the demand for technicians in this rapidly expanding industry.

The registered Trade Schools offered 81 different courses of study which were available in day or evening classes, by correspondence, or by a combination of classroom attendance and home study assignments.

Four Trade Schools discontinued operations during the year. Two of these were schools of dressmaking, one was a business college, and the fourth a school of dramatic art.

### **ENROLMENT**

The total enrolment in registered Trade Schools in 1954 was in excess of 26,000. Approximately 50% of this number would normally complete their training within 12 months of the date of enrolment.

### Ontario School for the Blind

### **ENROLMENT**

There were 194 pupils enrolled during the school year 1954-55.(20) Ten withdrew during the year and the enrolment in June 1955 was 184. Of these 99 were boys. As usual, students were received at the school from the Western provinces, 23 from Alberta, 14 from Saskatchewan, and 26 from Manitoba.

### **PROGRAMME**

The school programme was well balanced, the academic work and physical activities receiving proper attention. At the same time the musical programme which has always played an important part in the work of the School for the Blind was carried on most successfully. Performances of "H.M.S. Pinafore" were given in Brantford and Toronto. Graduates of the school continue to achieve successes in musical and academic fields.

### **Ontario School for the Deaf**

### **ENROLMENT**

The enrolment of the Ontario School for the Deaf, on September 15, 1954, was 377, an increase of five over that of the previous year. During the year it reached a record total of 380.(21) Most of these children were profoundly deaf. Their hearing losses for the better ear, as determined by the use of a pure-tone audiometer, were as follows: 90-100 decibels, 222 pupils; 80-89 decibels, 50 pupils; 70-79 decibels, 48 pupils; 60-69 decibels, 36 pupils; 50-59 decibels, 15 pupils; less than 50 decibels, 6 pupils. These six pupils with hearing losses under 50 decibels were not only hard-of-hearing but lived in communities where special provision could not be made for their education.

### **PROGRAMME**

Basic academic and vocational training formed the core of the school programme. Physical education and the annual participation in inter-school athletics with secondary schools of the district provided valuable social as well as physical training. School plays and pageants were presented to large audiences and the annual visiting day and display of work was attended by a large number of parents and friends.

### Service Record

### IN MEMORIAM

DAVID M. EAGLE passed away in Windsor on August 28. Mr. Eagle received his elementary education in Wellington County and his secondary education in Galt and Hamilton. He taught in the Galt Public Schools. He was principal of the

<sup>(20)</sup> For tables see p. 173.

<sup>(21)</sup> For tables see p. 172.

English Model School in Windsor for six years, and later was on the staff of the Patterson Collegiate Institute. For twenty-three years Mr. Eagle was principal of the English-French Training School for the training of teachers for schools in which French is a subject of instruction by permission of the Minister. For eight years he was Public School Inspector for Essex County. Mr. Eagle took an active part in community affairs. He served as Alderman for the City of Windsor, as Reeve for the Town of Sandwich, and as Warden of Essex County in 1926. Mr. Eagle will long be remembered as a prominent churchman, business man, traveller, and educator.

GEORGE E. PENTLAND, M.A., who retired as Inspector of Public Schools in South Grey County in 1944, died on July 23, 1954, in Owen Sound and was buried in Hanover. He was born in Thornbury, Ontario, and was educated at Heathcote, Collingwood Collegiate Institute, Hamilton Normal School, and Queen's University. He started to teach in Collingwood Township at the age of sixteen, after a course at Model School. Later he taught in Plattsville and Norwich Continuation Schools, and Stratford Collegiate Institute. He graduated with First Class Honours in Mathematics from Queen's University, where he also secured his Master of Arts degree. Later he was principal of Thorold, Beamsville, and Williamstown High Schools, and Vankleek Hill Collegiate Institute. He served overseas in World War I. On his return in 1920 he became public school inspector in Frontenac North. Later he was transferred to Grey South. He was interested in the personal health and welfare of children. Mr. and Mrs. Pentland took many rural children into their home to attend school and provided them with food and clothing and a good opportunity for secondary school education. Many excursions of children to the C.N.E. were organized in his inspectorate. He will be remembered as a mathematical scholar and a friend of little children. He is survived by his wife and two sons.

JAMES H. SEXTON, M.A., who retired as Public School Inspector of Middlesex West, died in July, 1954, in Strathroy, at the age of 89. He was born in Leeds County, attended Brockville College and Queen's University. He earned the gold medal in biology and chemistry. His teaching career began in the public school in the Village of Elgin. He taught high school in Gananoque and Kingston. He served as principal of Campbellford, Kemptville, Athens High Schools, and Strathroy Collegiate Institute. Mr. Sexton was appointed Public School Inspector in February, 1923, and retired in 1938. He had a fine appreciation of literature and loved to recite the poems of Burns. His keen sense of humour and fine sense of justice secured for him the co-operation and respect of teachers and trustees. He is survived by two sons, Dwight and Beaumont, and one daughter, Ella.

WILLIAM F. SMITH, B.A., B.Paed., who retired as an Inspector of Public Schools for Peel County in 1944, died in Toronto on July 21. Mr. Smith was born in Elgin County, attended S.S. #10 Bayham, Vienna Continuation School, and St. Thomas Collegiate Institute. After a term in St. Thomas Model School, he taught public school in Toronto, St. Thomas, Tillsonburg and Saskatchewan. Later he taught high school in Tillsonburg, Brampton, and St. Mary's, and served as principal of Trenton High School. In 1933 he became Inspector of Public Schools for Simcoe North. From 1938 until 1944 he was Inspector of Public Schools in Peel County. He loved to teach children, and taught for a year after he retired as an inspector. His Boards co-operated with him and equipped the schools with better libraries and modern conveniences. His period of faithful service extended over forty-eight years. He was buried in Tillsonburg and is survived by his wife and daughter.

WESTLEY A. WILSON, B.A., retired Public School Inspector for the Cities of Port Arthur and Fort William, passed away on August 17 in Toronto, at the age of 81. Mr. Wilson was born at Beaverton. He graduated from Queen's University in 1897 and taught in the Gananoque High School. Later he became principal of Kenora High School.

In 1919 Mr. Wilson was appointed Public School Inspector for the Districts of Temiskaming and Cochrane. In 1925 he was transferred to the Lakehead. Mr. Wilson inspired his teachers to improve their academic and professional qualifi-

cations. Many inspectors and teachers will long remember him for his wise counsel and sympathetic guidance.

### RETIREMENTS

FRANKLIN L. BARRETT, B.A., B.Paed., was born in the Town of St. Mary's and received his elementary and secondary education there. He attended the Stratford Normal School and taught in S.S. #7 East Nissouri and in the St. Mary's Public Schools. He served as principal of Brantwood Public School, Oakville. Mr. Barrett graduated from Western University in 1937 and two years later he was appointed supervising teacher in the County of Kent. In 1941 he became Public School Inspector for the County of Stormont, and was transferred to Kent County in 1946. He resigned on January 31 to accept the position of Senior Editor of Text-Books for Copp Clark Company, Limited. Mr. Barrett's outstanding scholarship, forceful personality, and able administrative qualities made him a most valued educator.

MISS E. GRACE CONOVER, M.A., B.S., Master in Health and Home Economics in the London Teachers' College, retired from that position in the autumn of 1954. Born in Peel County, Miss Conover received her secondary school education in Brampton, and then attended Macdonald Institute. She later studied Home Economics at Columbia University where she obtained the B.S. and M.A. degrees in that field. Her teaching experience included service on the staffs of Macdonald Institute, Weston Technical and High School, and the Ontario School for the Deaf, Belleville. In 1938 she was appointed to the Home Economics staff at the Toronto Normal and Normal-Model Schools. Four years later she transferred to the London Teachers' College where she became Dean of Women and head of the Home Economics department. Miss Conover's zeal and high qualifications enabled her to make a substantial contribution to teacher education. In her work she made many friends among students and associates, and they join in wishing her many years of well-earned leisure.

MISS L. HELEN DeLAPORTE, B.A., B.Paed., retired in January, 1954, completing over thirty years' service as Assistant Inspector of Auxiliary Classes in this Province. Miss DeLaporte was born in Toronto, attended its schools, and graduated in Arts and Pedagogy from the University of Toronto. After professional training at the Faculty of Education, she became a member of the staff of Lord Dufferin Public School. During World War I and the years following, she served at the College Street Military Hospital, specializing in Occupational Therapy and Mental Hygience. In 1923 she was appointed Assistant Inspector of Auxiliary Classes, the position which she held at her retirement. During her thirty years with the Auxiliary Classes Branch, Miss DeLaporte assisted in formulating basic plans for aiding handicapped children, conducted the first surveys in rural inspectorates, organized auxiliary classes in smaller cities and towns, and finally helped in organizing educational services for the cerebral palsied and the very limited learners. Through her untiring efforts to further the work of special education, Miss Delaporte helped to train thousands of teachers, investigated tens of thousands of handicapped children, and promoted the cause of Auxiliary Education through her personal associations with innumerable parents, teachers, ratepayers and school officials.

GEORGE L. GRAY, B.A., retired as a Secondary School Inspector in August 1954. He was born at Wingham and received his elementary education there. His high school course was taken at Elmira, N.Y. and he graduated from the University of Toronto with honours in English and History. From 1909 he was on the staff of St. Thomas Collegiate Institute, and became princiapl of that school in 1932. He came to the Department of Education as an Inspector in 1938.

Throughout his whole career as teacher, principal, and inspector, Mr. Gray has done much to improve the teaching of History and to advance the cause of education in Ontario. He has served as President of the English and History section of the O.E.A.; he was a member of the consultant committee in the general revision of the high school courses in 1936, and since 1937 has been concerned with all

the changes in History courses; he was the founder of the History News Letter. In recent years he has devoted much time to promoting interest in the United Nations and to the cause of goodwill among Canadian racial groups. Mr. Gray's retirement was a severe loss to education in this province; but fortunately he is still active in a number of educational projects in which his experience is of the highest value.

CHARLES HOWITT, B.A., B.Paed., Inspector of Public Schools for York No. 8, retired on April 6. Mr. Howitt was born in Guelph, where he received his elementary and secondary education. He spent one year in a private school in England. Upon graduation from the Guelph Collegiate Institute, he was employed for several years with Canadian Westinghouse Company, Limited. In 1916-1917 he attended the Faculty of Education. He taught in Perth Avenue Public School and Queen Victoria Public School, Toronto. For some years he was headmaster in Dovercourt Public School. Mr. Howitt won many promotions under the Toronto Board of Education, and served as principal of Strathcona, John Fisher, Essex, and Park Public Schools. In 1939 he was appointed Public School Inspector for South Waterloo. Three years later he was transferred to Welland County. In 1944 he became Inspector of Halton County, and after one year was transferred to York No. 8. Mr. Howitt gave himself unsparingly to his work. He was an outstanding teacher and an able inspector, who inspired with his skill, humour, and knowledge, those with whom he was associated.

Miss HELEN I. TURNBULL joined the staff of Teachers' College, Stratford, in September, 1947 and, resigned in August, 1954. She was educated in Saskatchewan, her native province, and in Ontario where she also received her professional training. Before going to Stratford, she taught in Swansea, Windsor and Niagara Falls. In Stratford, Miss Turnbull was Dean of Women and taught Health and Home Economics, in which subject she had special qualifications. Her fine contribution to education will continue as long as any of those who studied under her remain in the profession of teaching.

JOHN C. WALSH, B.A., B.Paed., retired from the position of Assistant Superintendent of Elementary Education for the schools of Ontario on September 1, 1954. Born at Read, Ontario, Mr. Walsh received his elementary education in Hastings County, and his secondary education at Regiopolis College, Kingston. He was graduated from the University of Ottawa in 1905 and attended Hamilton Normal School the following year. He taught at Gananoque, Plantagenet and Rockland High Schools, being principal of the latter two schools. In 1917 he was appointed Inspector of English-French schools under the Ontario Department of Education. In 1927 he was appointed Inspector of Separate Schools, Kitchener, for the Counties of Brant, Grey, Waterloo and Wellington. He obtained a postgraduate degree of Bachelor of Pedagogy from the University of Toronto in 1925. Mr. Walsh served as President of the Ontario Educational Association for the year 1946-1947. In 1944 Mr. Walsh was appointed Assistant Superintendent of Elementary Education. In this position his work dealt chiefly with the supervision of inspection and administration of separate schools. As a teacher and an administrator Mr. Walsh has served education well. His former associates in the Department of Education join with his many other friends in wishing him happy leisure in the vears ahead.

### **Elementary School Inspection**

### **APPOINTMENTS**

The following appointments were made by Boards of Education during 1954:

### City of Fort William (New Inspectorate)

T. A. S. McKee, B.A. B.Paed., Public School Inspector for District Division 3, appointed Public School Inspector, September 1.

### City of Toronto

H. E. Cavell, M.A., B.Com., B.Paed., and J. L. McCullough, B.A., B.Paed., Public School Inspectors, appointed Assistant Superintendents of Public Schools, September 7.

C. W. Maedel, B.A., B.Paed., Principal, Givins Public School, Toronto, appointed Public School Inspector, September 7.

N. A. Sweetman, B.A., B.Paed., Principal, Lord Dufferin Public School, Toronto, appointed Public School Inspector, September 7.

### Toronto Metropolitan Area (Scarborough)

R. H. King, M.A., Principal, Scarborough Collegiate Institute, appointed Director of Education, January 1.

R. L. Burns, B.A., Public School Inspector in York No. 6, appointed Superintendent of Public Schools, September 1.

A. S. Taylor, B.A., Principal, J. G. Workman School, Scarborough, appointed Assistant Superintendent of Public Schools, September 1.

F. S. Cooper, B.A., B.Paed., Principal, Park Lawn Public School, Etobicoke, appointed Public School Inspector, September 1.

J. J. Henderson, B.A., B.Paed., Lawrence Park Collegiate Institute staff, appointed Public School Inspector, September 1.

### Toronto Metropolitan Area (North York)

F. W. Minkler, B.A., D.Paed., Public School Inspector for York No. 7, appointed Director of Education, March 1.

T. L. Rowson, B.A., B.Paed., Supervising Principal, North York T.S.A. #1, appointed Superintendent of Public Schools, April 5.

D. L. Bornhold, B.A., B.Paed., Superintendent of Public Schools, Kirkland Lake, appointed Public School Inspector, September 1.

W. J. McIntosh, M.A., D.Paed., Staff of Jarvis School for Boys, Toronto, appointed Public School Inspector, September 1.

L. C. Sutherland, B.A., B. Paed., Public School Inspector for Waterloo No. 1, appointed Public School Inspector, September 1.

### Welland No. 4 (Chippawa, Stamford, Willoughby) (New Inspectorate)

R. A. McLeod, B.A., B.Paed., Secretary-Treasurer and Supervising Principal of Stamford District Board of Education, appointed Superintendent of Schools, September 1.

D. G. Warren, B.A., Public School Inspector without designated area, appointed Public School Inspector, September 1.

The following appointments were made to the provincial staff of inspectors during 1954.

### **Brant**

N. E. Ward, B.A., Milverton District High School Staff, appointed Public School Inspector to assist Inspector J. C. Webster, September 1.

### Bruce (In Part); Huron (In Part)

E. C. Evans, B.A., Principal, Hamlet Public School, Stratford, appointed Public School Inspector to assist Inspector J. M. Game, September 1.

### **Hastings South**

Alexander Cummins, B.A., Connaught Public School staff, Ottawa, appointed Public School Inspector to assist Inspector R. H. Macklem, September 1.

### Lincoln No. 1

Alexander Klim, B.A., B.Paed., Principal, Ancaster Memorial School, appointed Public School Inspector, September 1.

### Norfolk

D. S. Lawless, B.A., University of Toronto Schools staff, appointed Public School Inspector to assist Inspector W. F. Hammell, September 1.

### Simcoe North-West (New Inspectorate)

K. J. Ellis, B.A., Principal, Victoria Public School, Owen Sound, appointed Public School Inspector, September 1.

### Waterloo No. 1

S. D. Oakes, B.A., Aberdeen Public School staff, London, appointed Public School Inspector to assist Inspector D. W. Simpson, September 1.

### Wentworth

Miss Edith M. Deyell, M.A., Teacher of Social Studies and Co-ordinator of Guidance, Broadview Avenue Intermediate School, Ottawa, appointed Public School Inspector to assist Inspector J. K. Evans, September 1.

### York No. 1

E. M. Dunn, B.A., B.Paed., Lord Dufferin Public School staff, Toronto, appointed Public School Inspector to assist Inspector W. J. McLeod, September 1.

### **District Division 1**

C. G. M. Smith, B.A., Principal, Francis Street Public School, Fort William, appointed Public School Inspector to assist Inspector R. S. McBurney. September 1.

### **District Division 7**

E. C. Reeb, B.A., M.Ed., Head of Guidance Department, Fort William Collegiate Institute, appointed Public School Inspector, September 1.

### District Division 13 (1)

M. C. Napper, B.A., North Bay Collegiate and Vocational School staff, appointed Public School Inspector, September 1.

### District Division 19 (New Inspectorate)

A. J. MacLean, B.A., Principal, Napanee Public Schools, appointed Public School Inspector, September 1.

### R.C.S.S. Division 32 (New Inspectorate)

J. R. Lalonde, B.A., B.Paed., Garneau Separate School staff, Ottawa, appointed Separate School Inspector, September 1.

### R.C.S.S. Division 33 (New Inspectorate)

J. F. Johnston, B.A., Chatham Collegiate Institute staff, appointed Separate School Inspector, September 1.

### R.C.S.S. Division 34 (New Inspectorate)

J. B. Healy, B.A., B.Paed., Hamilton Teachers' College staff, appointed Separate School Inspector, September 1.

### **TRANSFERS**

The following transfers were made in the provincial staff of inspectors during the year 1954:—

- J. D. Bougie, B.A., B.Paed., Inspector without designated area, to R.C.S.S. Div. 36, September 1.
- G. C. Filion, B.A., Inspector without designated area, to R.C.S.S. Div. 3, September 1.
- A. A. Gilroy, B.A., from Bruce (in part); Huron (in part) to Kent No. 2, September 1.
- J. D. Hanmer, B.A., B.Paed., from York No. 7 to Toronto Metropolitan Area (East York) with Inspector W. E. Eade, September 1.
- F. J. Hodge, B.A., B.Paed., Inspector without designated area, to R.C.S.S. Div. 35, September 1.
- R. G. Kendall, B.A., B.Paed., from York No. 7 to Toronto Metropolitan Area (York) with Inspector W. G. Chatterton, September 1.
- J. S. Lowcock, B.A., B.Paed., from District Div. 8 (1) to District Div. 18, September 1.
- W. J. McLeod, B.A., B.Paed., from Norfolk to York No. 1. September 1.
- Miss L. L. McNeill, B.A., B.Paed., from York No. 7 to Peel South with Inspector A. A. Martin, September 1.
- Remi Millette, M.A., B.Paed., Ph.D., from R.C.S.S. Div. 2 to R.C.S.S. Div. 31, September 1.
- G. A. Noble, B.A., B.Paed., from York No. 1 to Toronto Metropolitan Area (Forest Hill and Leaside), September 1.
- P. E. Piche, B.A., B.Paed., from R.C.S.S. Div. 3 to R.C.S.S. Div. 2, September 1.
- C. A. Rath, B.A., from District Div. 7 to Carleton and Prescott & Russell No. 1, September 1.
- J. L. Runnalls, B.A., from District Division 13 (1) to Lincoln No. 2 and Welland (in part) September 1.
- W. K. Shea, B.A., Inspector without designated area, to R.C.S.S. Div. 37, September 1.
- D. W. Simpson, B.A., from Carleton and Prescott & Russell No. 1 to Waterloo No. 1, September 1.

### PART II STATISTICS

**CURRENT and RETROSPECTIVE** 

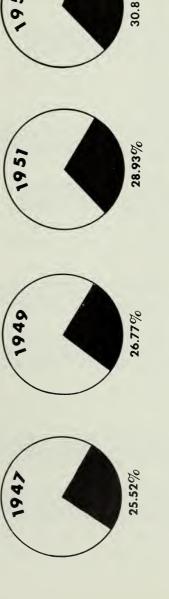

### **EDUCATION EXPENDITURES VERSUS REMAINING MUNICIPAL SERVICES**

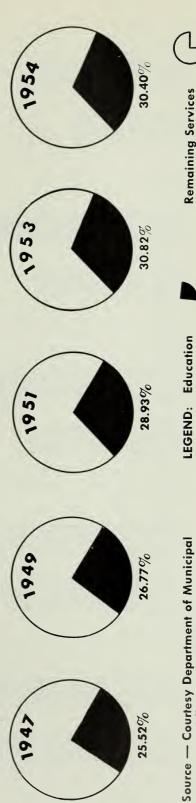

## Percentage Increase in Expenditures, 1947-1954

(1947 = 100%)

	1947	1949	1951	1953	1954
Education Levies, including debt charges	100.0%	133.1%	187.2%	244.5%	274.1%
Remaining Municipal Services*	100.0%	124.7%	157.6%	188.1%	215.0%
Municipal Taxation per capita for Education	\$12	\$15	\$20	\$24	\$25

\*The larger of these are: Public works; protection to persons and property; debenture principal and interest; general government; social welfare; sanitation and waste removal; conservation of health; recreation and community services.

Affairs - 1954 Report

# A CONSPECTUS OF PUBLIC EDUCATION IN THE PROVINCE OF ONTARIO, 1954

(1) Excluding payments by the Province to Boards for services rendered, such as for the education of pupils from certain unarganized areas, and for the use of schools for practice teaching.

(2) The Federal Government paid the Province \$976,972 in 1953 and \$597,500 in 1954 in connection with grants to vocational schools in these and previous years.

(3) The General Legislative Grant paid in each of the above years includes grants for night schools, text books and milk.

(4) In 1953 this sum included an amount of \$533,227 paid on new vocational schools, to the cost of which the Federal Government contributes.

### VI PROVINCIAL POPULATION AND SCHOOL ENROLMENT

Note: Population and Exemptions apply to the calendar year, while Pupil Enrolment is based on the school year.

(For example, day school enrolment of 1940-41 is calculated as a percentage of the population of the calendar year 1940)

	ation	in System	Population	Doy S Enrolr Classi os bet	nent ified	Compul Age Enrolm (8-15 i	ent	Compul Adolescer Enrolm (14-15	nt Age ent		mptions f ol Attend

### IX-IMMIGRATION TO CANADA, OF CHILDREN UNDER 18 YEARS OF AGE, BY PROVINCE OF INTENDED DESTINATION

Over 214,000 immigrants under 18 years of age entered Canada in the past 6 years. Over 54% came to Ontario. 70% of these immigrants are not over 10 years of age. The last 4 years have shown the heaviest influx. The distribution by province follows:

Yukan and N.W.T.	24	14	14	m	7	-	63
B.C.	3,077	3,620	4,356	3,707	1,715	1,928	18,403

The above data was supplied by the Statistics Branch of the Department of Citizenship and Immigration—Courtesy Dominion Bureau of Statistics.

# X—NET NUMBER OF CHILDREN TRANSFERRING IN OR OUT OF PROVINCES

(BASIS: 2.3 CHILDREN PER FAMILY FOR YEARS 1949-50 TO 1953-54, AND 2.35 FOR YEAR 1954-55)

1954-55 the number of families has been multiplied by 2.35—an average for Canada, though the average varies among the provinces. May, 1955 Family Allowance report shows the following number of children per family for each province: NAd.—3.00, P.E.I.—2.73; N.S.—2.45; N.B.—2.77; Que.—2.68; Ont.—2.12; Man.—2.21; Sask.—2.30; Atra.—2.24

B.C.-2.07.

These figures are based on the monthly reports of the Family Allowances Division of the Department of National Health and Welfare. These reports give the number of families. For

### XVI—DEPARTMENTAL SUMMER COURSES

### **Enrolment by Subject, 1945-54**

The Summer Courses are conducted by the Department of Education to enable teachers to refresh their knowledge of special subjects, acquire new skills and become acquainted with the latest developments in educational content and method.

Cost covers current operations, capital charges, capital outlays from current funds, and transportation.

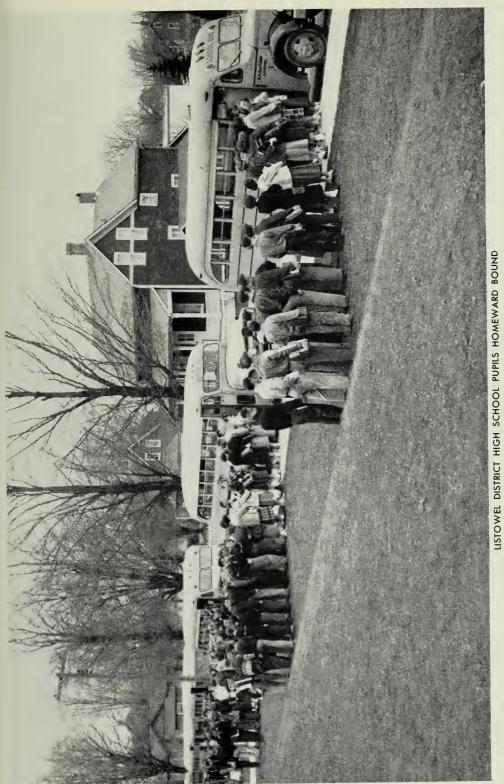

The above applies to a pupil in average daily attendance. See page 62 for dollar costs in these and previous years.

### XXIII—PUPIL TRANSPORTATION

School Boards continue to employ contractors, rather than own and operate busses. Less than 2% of the school busses are owned by School Boards.

During the school year 1954-55 the approved cost per pupil-day dropped 4 cents, while the approved cost per mile increased 1 cent. The total number of routes increased by 79, while the total approved cost increased by \$544,201.

Notes: 1. Minor revisions in increased enrolment in the years 1945, 1946 and 1947 appear in this issue.

- 2. Enrolment increases are calculated on September enrolments.
- 3. Building projects are counted in the year of completion.
- 4. No account is taken in this table of pupil-places lost as a result of the following foctors; shift from urban to suburbon areas, fire losses, replacement of temporary and obsolete accommodation, and obandonment of small buildings to permit centralized facilities.

## POST-WAR SCHOOL BUILDING CONSTRUCTION

The effectiveness of the school building programme in Ontario is indicated below in school terms, i.e. new pupil places provided by the construction of new schools and additions for each year from 1945 to 1954. The total for ten years is 262,395 pupil places in elementary and 62,000 in secondary schools. This includes replacements and additional accommodation.

### XXV—DESTINATION OF PUPILS WHO LEFT ONTARIO ELEMENTARY AND SECONDARY SCHOOLS DURING, OR AT THE END OF THE SCHOOL YEAR 1953-54

63,933 Pupils left Elementary and Secondary Schools

9,828 (15%) went on to further training

3,477 (35%) to College and University
2,085 (21%) to Business College
1,567 (16%) to School of Nursing
1,392 (14%) to Teachers' College
643 (7%) to Provincial Technical Institute
509 (5%) to Pre-Teachers' College
155 (2%) to Private Trade School

8,328 (13%) left Ontario

45,777 (72%) retired from school life

8,571 (19%) to Commerce and Finance
6,358 (14%) to Services (Personal and
Home Help)
4,537 (10%) to Industry
4,477 (10%) to Unskilled Labour
4,864 (11%) to Unclassified Occupations
4,701 (10%) Destination Unknown
4,268 (9%) to Agriculture
2,572 (5%) to Services (Public)
2,704 (6%) to Trades and Crafts
1,760 (4%) to Transportation and
Communication
965 (2%) to Armed Services

## TABLE 24—TRANSPORTATION ASSISTANCE FOR PERSONS RESIDING IN THE TERRITORIAL DISTRICTS

The Province of Ontario provided transportation assistance to 621 students during the school year 1954-1955. \$12,381.75 was paid to 441 students residing east of Sault Ste. Marie and 180 students residing west of Sault Ste. Marie. Of those assisted 222 were in the first year, 167 in the second year, 125 in the third year, 102 in the fourth year, 3 in the fifth year and 2 in the sixth year.

The institutions ottended by these students were as follows:

University of Toronto	1
Queen's University	13
University of Western Ontario.	
University of Ottawa	
Ontario Agricultural College	
Ontario Veterinary College	
Ontorio College of Education	
MocDonald Institute	
Assumption College	
McMaster University	
Ontario College of Art	
Sacred Heart College	
Osgoode Hall Law School

Number of Free Libraries, November 1st, 1954.	dr.				
5	5				
Z	Z				

One new Free Library (Michicipoten Twp., Wawa); and three Association Libraries (Atikokan, Forest Hill and Longlac) were formed from November 1st, 1953, to November 7th, 1954. One Free Library (Lancaster) was revived after many years of inactivity.

Seven Association Libraries (Bradford, Byron, Forest Hill, Huntsville, Merlin, Riverside and Wardsville) became Free Libraries.

One Association Library (Queen Elizabeth) was closed and one (Sprucedale) withdrawn from the list of active libraties.

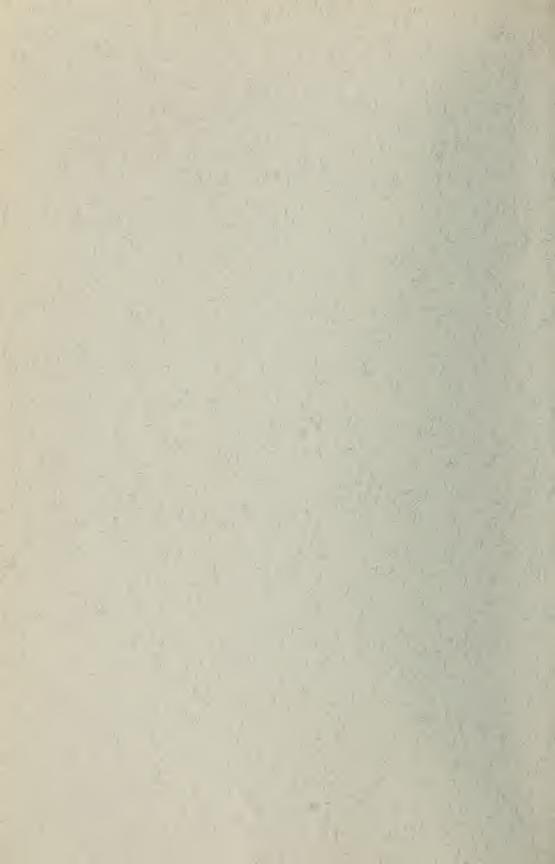

Average Local tax levy per capita

82 cents.

### TABLE 44—PUBLICATIONS OF THE DEPARTMENT OF EDUCATION

As of September 1st, 1955

Years of any revision are indicated.

### A. COURSES OF STUDY

### Junior Kindergarten to Grade VIII

- Programme for Junior and Senior Kindergarten and Kindergarten Primary Classes of the Public and Separate Schools, 1944, 1946, 1950, 1954, 1955.
- Programmes of Studies for Grades 1 to VI of the Public and Separate Schools, reprinted with minor revisions in 1955.
- 3. Programme for Religious Education in the Public Schools, 1949.
- 4. Curriculum I. 1, Intermediate Division of Courses for Experimental Use, 1951.
- 5. Circular I. 3, Guidance in the Intermediate Division, 1950 and 1953.
- 6. Curriculum I. 4, Supplementary Reading List for Grades VII to X, 1951, with additions 1954, 1955.
- 7. Curriculum I. 5, Physical Education, Outline of Courses for Experimental Use, Grades VII to X, 1952.

### B. REVISION OF CURRICULUM

- 8. Curriculum: 1, Revision of Curriculum, December 10, 1949.
- 9. Curriculum: 2, Promotion from Grade VIII and Admission to Grade IX, March 30, 1950.
- 10. Curriculum: 3, Establishment of Local Committees on Curriculum, May 15, 1950.
- 11. Curriculum: 7, Memorandum re Curriculum, Progress of the Revision, 1952.
- 12. Curriculum: 8, Selections of Text-books in Social Studies.
- 13. Curriculum: 9, Books for School Libraries (Elementary).

### C. COURSES OF STUDY

### Grades IX to XIII

- 14. Circular H.S. 1, Requirements for Certificates and Diplomas for 1955-56. Outlines subjects of various courses leading to Intermediate Certificates, Secondary School Graduation Diplomas, and Secondary School Honour Graduation Diplomas.
- Circular H.S. 1B, List of Publications re Courses of Study, Grades IX to XIII, 1955-56. Lists Circular Numbers and Titles of the various Courses of Study.
- Curriculum I. 1, Intermediate Division (Grades VII to X), Outlines of Courses for Experimental use, 1951.
- Courses in the various subjects of Grades XI, XII, and XIII. These should be requested by subject and grade.
- Circular 46, Courses of Study and Examinations in Schools attended by French-speaking Pupils, 1955.
- 19. Circular 14, Text-books Authorized and Recommended for 1955-56.
- Circular H.S. 58, Prescriptions in English and Modern Languages for Grade XIII Departmental Examinations, 1956.
- Circular 46 (a), Prescriptions in French for French-speaking Pupils for Grade XIII Departmental Examinations, 1956.

### D. TEACHING AIDS

### Art

- 22. Art and Crafts in the Schools of Ontario, 1949.
- 23. Art Education in the Kindergarten, 1952.
- 24. Art Education for Slow Learners, 1953.
- 25. Art Education during Adolescence, 1954.

### Library

26. Teachers' Library Catalogue.

### Music

- 27. Circular Mus. 1, Training the Voices of Children and Adolescents, 1944.
- 28. Circular Mus. 2, Music in Rural Schools, 1946.
- 29. Circular Mus. 3, School Music Festivals, 1946.
- 30. Circular Mus. 4, Introducing Part Singing with Adolescent Boys.
- Circular Mus. 5, Memorandum relating to The Teaching of Music in Elementary and Secondary Schools, 1955.
- 32. Circular Mus. 10, Operettas, Music Plays and Cantatas.
- 33. Music Appreciation Through Listening, for Elementary Schools, 1950, 1953.

### Radio

34. School Radio Broadcasts. October, April, 1955-56.

### Religious Exercises, Religious Education and Religious Instructions

- 35. List of Bible Readings for Schools, 1944, 1949.
- 36. Programme for Religious Education in the Public Schools, 1949.

### E. ADDITIONAL PAMPHLETS

- 37. Visual Education Catalogue.
- 38. Teaching in the Elementary Schools of Ontario, 1955.
- 39. Teaching Try-Out Experience, 1950.
- 40. Calendar of the Teachers' College, 1955.
- 41. Calendar of the University of Ottawa Teacher's College, 1955.
- 42. Calendar of the Primary Specialist Course, 1955.

### F. SCHOOL ACTS

- 43. The Department of Education Act, 1954.
- 44. The Public Schools Act.
- 45. The Schools Administration Act, 1954.
- 46. The Secondary Schools and Boards of Education Act, 1954
- 47. The Separate Schools Act.
- 48. The Ontario School Trustees' Council Act, 1953.
- 49. The Teachers' Superannuation Act.
- 50. The Teaching Profession Act.
- 51. The Trade Schools Regulation Act.
- 52. The Public Libraries Act.

### G. REGULATIONS

- 53. Public and Separate Schools.
- 54. Secondary Schools.
- 55. Elementary School Inspectors' Certificates.
- 56. Supervisory Officers.
- 57. Scholarships for Study Outside Ontario.
- 58. School Attendance.
- 59. General Legislative Grants.
- 60. Grants for Non-Profit Camps.
- 61. Assistance in the Cost of Educating Retarded Children.
- 62. Programmes of Recreation.
- 63. Public Libraries.

### **Terminology**

- Admission—Refers to a pupil whose name is entered for the first time on the roll of a school or whose name is re-entered on the roll after having been removed from the roll by reason of transfer or retirement.
- Assessment—The valuation placed upon property for tax levy purposes. The County Council generally makes an equalization annually of local assessment figures, and this equalized figure is used in the computation of Legislative grants to schools.
- Attendance Efficiency—The percentage relationship of the actual days attended to the perfect aggregate.
- Auxiliary Classes—These are provided for gifted, socially or educationally maladjusted, retarded, or physically-handicapped pupils.
- Capital Charges—Debenture instalments, or sinking fund deposits, made on debt incurred for school buildings and equipment.
- Car School—A school on wheels, carrying education and social life to small isolated communities scattered along the railway lines of northern Ontario. Six car schools are in operation at present, travelling over routes which vary from 83 to 221 miles. With the school remaining at a stop for about a week, a circuit is completed in four to six weeks. The regular school programme is followed, and work is outlined for the pupils to complete while the school is away. At present approximately 140 pupils receive education in this way. All operating costs are paid by the Department.
- Compulsory School Age—Children who are six years of age on or before the first school day in September must attend school from that date until the last school day in June of the calendar year during which they attain the age of sixteen years. Where the need is urgent a child may be granted a home permit or an employment certificate which must not be for more than six weeks in a term if he is under fourteen years of age.
- Consolidated School—An amalgamation of two or more rural schools, or of rural schools with a village or town school, either for the purpose of strengthening the means of school support where the original schools were small or poor, or for the purpose of providing a graded school and other advantages, such as conveyances.
- Correspondence Courses—Are those courses provided by the Department of Education for persons who are unable to attend school because of age, health or distance. They include (a) Academic (Grades I to XIII) and (b) Trades (Automotive Mechanics, Carpentry, Machine Shop Practice, Radio Theory and Practice).
- Cost per Pupil-Day—The cost of educating one pupil of actual attendance, for one day. It is found by dividing the total cost of education of the group of pupils concerned by the actual aggregate attendance of this group for the period under consideration.
- County Pupil—A secondary school pupil living within the County but outside any secondary school district.
- District—The eleven defined areas of Northern Ontario which do not constitute municipal units for any purpose. With the exception of Parry Sound and Muskoka, these areas lie north of the French River and Lake Nipissing.
- Enrolment (Net)—Net Enrolment for any school year is the sum of (i) the enrolment on the last school day in September and (ii) admissions from the first school day in October to the last school day in June, less (iii) the number of transfers to other Ontario public, separate, or secondary schools from the first school day in October to the last school day in June.
- Free School Age—The Public Elementary Schools are free to all resident pupils between the ages of 5 and 21 whose parents are public school supporters. The Separate Schools are free to the children of the separate school supporters. The Secondary Schools are free to all except non-resident pupils.
- General Maintenance—Ordinary, current expense, as opposed to capital outlays and debenture charges.
- Improvement District—Shall be deemed to be for all purposes of every Act a township municipality, a village municipality, or a town municipality, as may be designated from time to time by the Municipal Board.
- **Inspectorate**—The area under the supervision of a local Department representative.
- **Kindergarten-Primary**—A class combining the work of the kindergarten and Grade I.

- Non-Resident Pupil—A secondary school pupil who is neither a resident nor a County pupil.
- Public School Section—A subdivision of a township for elementary school purposes, containing a minimum of 50 children between the ages of 5 and 21, and having a maximum area of four square miles.
- Resident Pupil—A secondary school pupil living within the secondary school district.
- Retirement—Refers to a pupil who withdraws from a public, separate, or secondary school in Ontario and is not enrolled in any one of the following types of Ontario schools—public, separate, or secondary.
- **School**—Provincially controlled schools may be classified as:
  - 1. Elementary— Those doing the work of the first eight grades. A few have Fifth Classes (see above).
    - (a) Public—The first school established in any school section or urban municipality, and supported by the ratepayers.
    - (b) R.C. Separate—For the children of Roman Catholics.
    - (c) Protestant Separate—For the children of Protestants in centres preponderantly Roman Catholic.
  - II. Secondary—Those doing the work of Grades IX to University Matriculation.
    - (a) Academic:
      - 1. Collegiate Institutes.
      - 2. High Schools.
      - 3. Continuation Schools.

These schools are differentiated by minimum staff requirements. Continuation Schools are located mostly in villages or rural areas. Academic courses are designed to lead to Universities and Teacher-Training Schools.

- (b) Vocational:
  - 1. Technical High Schools.
  - 2. Commercial High Schools.

In the smaller centres academic and vocational departments are frequently found in the one building, which is then called a composite school. Vocational courses are designed to lead to industry, trade and commerce.

### III. Provincial Technical Institutes

These offer courses designed to train technicians for positions in industry which are supplementary to, but not in the field of, professional engineering. The admission requirement is secondary school graduation, and the courses are of two or three years' duration. The Institutes are owned and administered directly by the Department of Education under the Vocational Education Act, Part II, but close co-operation with industry is maintained through advisory committees, the members of which are appointed by the Minister.

### IV. Professional Training Schools

- (a) Ontario College of Education (University of Toronto)—for the training of secondary school teachers.
- (b) Provincial Teachers' Colleges—for the training of elementary school teachers.

### V. Special Schools:

Ontario School for the Blind, Brantford.

Ontario School for the Deaf, Belleville,

- School Year—The school year consists of two terms, September 1 to December 22, and January 3 to June 29. In addition to the intervals between these terms there is a vacation of one week following Easter. In this Report statistics cover the school year where possible. Financial data remain on the calendar year basis.
- Secondary School District—The area over which the secondary school board exercises supervision. Each city and separated town is a secondary school district. The County Council may establish a secondary school district composed of an urban municipality only, a group of school sections only, or a combination of both. In territorial districts of Northern Ontario any municipal council or councils may establish the whole or any part of the municipality or municipalities as a secondary school district, with the approval of the Minister of Education.
- Township School Area—A unit of school administration comprising two or more contiguous rural school sections in the same township or in adjacent townships, or comprising such rural sections along with one or more adjacent villages or towns. See Cir. Elem. 15, "The Township School Area in Ontario."
- Transfer—Refers to a pupil who withdraws from a public, separate, or secondary school in Ontario and is enrolled in any one of the following types of Ontario schools—public, separate, or secondary.
